

Love Birds

Volume 10

Easter Season

First Week:

First week in April is usually general conference! Watch the sessions together as a family and take notes on what stands out to you. Pay special attention to talks about the atonement and how it applies to you individually and as a couple.

In-Between Weeks :

Husband ~ I. Doctrinal Foundation. The husband is going to prepare a lesson about the atonement - bonus points for using a talk from conference! Then dye some eggs together, don't forget to take pictures!

Wife ~ II. Strengthening Marriage. Wife, how does the atonement strengthen your marriage now? How can it make your marriage better? Talk about it! Arrange making a cute Easter craft together! Make it be something you can use throughout your years together! Make it special and find a hidden spot to write the date you made it!

Friend Week :

Invite another couple or two (or more!) to come over and have a Easter party! Once your guests arrive, announce that there are eggs hidden around the house! Tell them how many and have everyone gather them together but not to open them yet. In each egg put a scripture or quote about the atonement and after all the eggs have been found read them in turn, and have a discussion about how that applies to strengthening your relationship as a couple! Don't be afraid to share, no relationship is perfect and we could all use each other's help!
