

Love Birds

Volume 7

Games, Games, & more Games!

First Week:

Games are fun! Playing games together engages both of you and best of all it is not watching TV! Your goal this first week is to pick at least one night a week that will be your "Game Night" as a family! Then on that night pick one of these games to play:

Battleship, Uno, Sorry or Risk! Enjoy the time together! It will bring your family closer together and create awesome memories in the process! The list of games each week is just a basic guide - try to pick a new game each week to play, if you don't have any games ~ invest or borrow from a friend!

In-Between Weeks :

Husband ~ This week why don't you make a treat for the two of you to share and then play one of the following games: Trouble, Phase Ten, Monopoly, or Scrabble!

Wife ~ This time spice it up a little! Winner gets a free back massage after the game, wink wink! Choose from one of these games to play: Life, Connect Four, Mancala, or Checkers!

Friend Week :

Invite another couple or two (or more!) to come over and have a Game night! Have each couple bring a dessert to share and enjoy planning one of these games: Skipbo, Pass the Pigs, Dicecapades, Settlers of Catan, or Clue! Or even better have them bring their favorite game to share!
